

**Learning Bird**  
Find your path to better learning™

## What is Learning Bird •

Learning Bird is a learning platform that offers trusted digital content, adaptive algorithms, integrated quizzes and teaching support tools to make it easier for all teachers to differentiate their instruction so every child performs better.

---

### How We Help

Every student wants to learn, and every teacher wants students to succeed. However, helping students navigate through their individual learning goals can be challenging, particularly when a student encounters an obstacle and needs more help to understand different concepts.

This is where Learning Bird shines. Our solution includes engaging digital content that can help students navigate around obstacles by viewing lessons that offer another approach on the same topic.

We bring the power of many teachers to every student. This transforms how students learn, leading to better results and more support in the classroom.

Learning Bird has a library that includes thousands of engaging digital lessons covering all subject areas for grades 6-12, all aligned to your local curriculum and vetted by real teachers. We combine this with adaptive algorithms that recommend lessons based on what's worked in the past for a student, and with tools that allow your teachers to easily deploy, manage and scale differentiated learning in their classrooms.

## Key Features and Benefits

One holistic application that offers trusted digital content, adaptive algorithms for personalized learning paths, integrated quizzes and teaching support tools.

**Benefit:** *Enables teachers to increase classroom productivity and frees up time for them to focus on new, exciting and engaging ways to impact student learning.*

Multiple lessons on every topic allow students to access resources that convey different approaches and are delivered in different ways - video, PowerPoint, songs, and documents.

**Benefit:** *Students learn the way they learn best, and have access to lessons delivered in different ways by different teachers.*

A large library teacher vetted digital lessons that are aligned to local curriculum.

**Benefit:** *Teachers have immediate access to relevant, trusted and aligned content.*

Our new classroom management feature allows teachers to easily set-up all their students in the platform and to view and track their collective and individual progress.

**Benefit:** *Teachers can follow and react to performance results and assign relevant lessons to students who are struggling, or those that need more of a challenge.*

An integrated quiz feature allows teachers to quickly build quizzes and assign them to a student or a group of students.

**Benefit:** *Teachers can assess understanding and intervene quickly to get students back on-track.*

## Supporting Your Goals

Learning Bird is designed to support your goals of:

- ✓ empowering teachers in student success
- ✓ increasing test scores
- ✓ improving graduation rates
- ✓ enhancing college and career-readiness
