

# Top Hat Pro

Online. In Person. Blended. Get the flexibility to engage your students, anytime, anywhere

Take attendance, present slides, host discussions, give homework, assign interactive readings and run tests—and do it **all in one place**. Plus, get constant, real-time feedback on how students are learning across every touchpoint (Phew!)

## We're not an LMS, but we're the perfect pairing for yours!

Engage students with Top Hat and view grades, attendance and participation data in the Gradebook. Easily export to your LMS.

## Hosting live classes online? Forget speaking into the void.

Use Top Hat with your preferred video streaming solution to bring active learning to any class.

## Crank student engagement up to 11 in and out of the classroom

- Make learning active with **live discussions, polls and quizzes** students can respond to on any device
- Create an engaged community and keep students collaborating with **Top Hat Community**, our instant messaging tool that works inside the classroom and out

## Use interactive digital course materials students actually want to read

- Choose from thousands of **affordable, high-quality interactive textbooks** you can customize to suit your needs
- Or create your own course materials and bring them to life with **videos, simulations, interactive homework questions** and more

## Assess students early and often

- Use **instant feedback from polls, quizzes and assignments** to guide your teaching
- Run **secure in-class tests** or **remote proctored exams**
- Save time with **question packs and auto-grading**

## Get a lock on student success with actionable insights

- Every interaction—attendance, participation, assignments, tests—is automatically captured in the **Top Hat Gradebook**
- Each week you'll be served a **Weekly Course Report**, with actions to help struggling students that are just a click away

Neuroanatomy 101

Neurotransmitters are released into the synapse then join with postsynaptic receptors. Where are these receptors?

A	Myelin Sheath	8%
B	Axon	7%
C	Dendrite	85% Answered Correctly
D	Vesicles	

*“Top Hat is a one-stop shop students can directly access from their devices, wherever they are. It saves them from having to navigate different resources.”*

Frank Spors, Associate Professor,  
College of Optometry, Western  
University of Health Sciences.

*“I thank Top Hat for doing a great job helping professors engage with their students faster and more easily. The DFW rate in my course decreased 3.4%”*

Ricardo Nogueira, Senior Lecturer,  
Department of Geosciences, Georgia  
State University.

*“The essay scores and grades have improved because students have a better understanding of the content. There were 12% more students passing.”*

Brooke Archila, Associate Professor  
English Department, Madisonville  
Community College.
